City To Receive New Fire Truck

Services Here Wednesday For Bartle Crenan

Funeral services were held 10 a. m. Wednesday for Bartle Crenan, 68.

Crenan died in a local hospital Tuesday morning. He was born May 4, 1893 in Hearne and lived in Burlington until 10 years ago when he moved to Cameron. He was a farmer and rancher.

The Rev. John Geiser officiated from St. Monica's Catholic Church. Burial was in St. Monica's Cemetery. Rosary was recited Tuesday night from Marek - Burns Funeral Home

Survivors are his wife, Mrs. Bartle Crenan of Cameron, one son William J. Crenan of Burlington, one daughter Miss Ellen Frances Crenan of Cameron, one sister Mrs. Ellen Hudson of Alpine, 3 grandchildren and a number of nieces and nephews.

Pallbearers were Valter White, Tommy Gleason, Erich Rothe, V. L. Angell, Bill Hudson and Nick Brannan.

Honorary Pallbearers were Claude Akers, H. M. Akers, Ernest Vogelsang, Dero Jenkins, Eber Flinn, Leo O'Neill, A. A. Winkleman, August Gurecky and Paul Dillon.

Airline Includes City In Proposal

A Houston aviation firm has applied for a certificate providing scheduled air service to cities in Louisiana, Mississippi and Texas, naming Cameron as one of a number of Cen - Tex communities.

Cummings & Groves Aviation, Inc., of Houston, filed the proposal with Civil Aeronautics Board to use twin - engine aircraft on a number of routes.

Cameron was named among 10 Texas cities for service on return flights from San Antonio to Houston. Others named were Fredericksburg, Austin, Temple, Hearne, Bryan, Brenham, LaGrange, Eagle Lake and Rosenburg. The proposal included service from Houston to: Kerrville by way of Galveston, Freeport, Bay City, Palacios, Victoria, Rockport - Port Aransas, Refugio, Corpus Christi, Beeville, Pleasanton and San Antonio.

The Houston company also listed three towns in Louisiana and 11 cities in South Texas and the Valley for possible service in the future.

The Associated Press release appeared in the San Antonio Express last week.

It was the first consideration given Cameron or most of the other small Cen - Tex cities for commercial airline service. At present scheduled air service goes only to Waco, Temple, Austin and Bryan in the Central Texas area.

CFD ENTRANCE BEING WIDENED BY WORKMEN

Cameron will receive delivery of a new 700 - gallon fire truck sometime during the next week, according to Mayor Coleman Duncum.

The truck and special equipment were purchased early this fall for delivery this winter, he said.

The additional truck will bring to three frontline pumpers the city will operate. The Ford pumper now in use will probably be adapted as a special tank truck for grass fires and country fires, the Mayor said.

Workmen were also removing a center post in the entranceway of the fire department to allow more room for the trucks to enter and exit.

The new Ford fire truck carries 700 gallons of water while the GMC carries 500 gallons, And the old Ford carries about the same.

In other City news, Mayor Duncum said the city is doing a lot of basework, graveling Culpepper Addition, streets in Northwest Cameron and numerous gravel base streets in the city.

Some drainage work is being done on Travis Avenue to Fannin, Mayor Duncum said.

He noted that some drainage work was also underway, but was slowed by the heavy rain earlier this week. Basework was also halted by rain.

Yoemen Defeat Rogers, 48 - 39 In Game Tuesday

The Cameron Yoemen defated Rogers A - team 48-39 Tuesday night behind the scoring of Yoemen Moody, Anderle and Brashear with 30 points between them.

Rogers' Harbour was top scorer for the ballgame with 18 points.

Cameron dominated four contests with Rogers Tuesday. The B-team won over Rogers 43-30; the eighth grade squad won 48-28 and the seventh grade won 30-6

But the Yoemen did not fare as well in the Marlin Invitational tourney last week as they dropped two games and won one. They defeated the Marlin B-team 37-14, but fell before the baskets of McGregor, 51-45, and University High of Waco, 58 - 14.

The Junior High teams split contests Monday with Rosebud seventh and eighth grade teams.

Cameron's seventh graders won 24-16 over Rosebud, but the eighth grade Panthers edged the Cameron eighth grade team 42-40.

Cotton Quotas Favored In Election Sat.

Alva E. Sanders, Manager of the Milam County ASCS Office in Cameron, reports that the majority of the Milam County cotton producers voting in the 1962 cotton marketing quota referendum held on December 12 favored marketing quotas. A total of 337 votes were cast in the fourteen polling places in Milam County, with the largest number of ballots being counted in "H" Community.

By Community, the turnout ran as follows: "A" 57 votes; "B" 30 votes; "C" 9 votes; "D" 19 votes; "E" 63 votes; "F" 37 votes; "G" 29 votes and "H" with a total of 93 votes cast. Of the total eligable votes counted, 320 were in favor and 17 opposed cotton quotas.

The affirmative vote in Milam County indicates that cotton farmers desire marketing penalties on the excess cotton produced and support price at the full effective level.

Support price, says Sanders, will be available to only those cotton farmers who stay within their allotment. To those who overplant their allotment and do not destroy the excess by the deadline date, there will be no price support and penalties will apply to all excess cotton produced.

Patrolman, 27, Joins City Force

Chief Elvin Hoskins has announced the hiring of a new patrolman for the Cameron Police Department.

Bobby Riggs, a patrolman in the Bryan Police Department for six years, assumed duties in Cameron Monday. He replaces E. J. Brokenbush who was recently named City Marshall in Rosebud.

Riggs, 27, is married and has three children.

Corpus Preacher To Serve Cameron Church of Christ

Eddie Meyers, associate minister of North Street Church of Christ, Corpus Christi, has been named preacher of the Cameron Church of Christ, 100 E. Third St.

He succeeds Don Fraiser, who has moved to a Dallas church as preacher.

Mr. Meyers, 24, served as associate minister and song, educational and youth activity director of the Corpus Christi church. He is a 1958 graduate of Texas Christian University with a bachelor of science in education degree.

He is a graduate of Arlington School where he received the Arion Foundation Award in music.

He is married and has two sons, Ricky 3, and Ronnie 4. Mrs. Meyers is a native of Arlington.

He also has taught in the Corpus Christi public schools and in the Fort Worth Christian School and College. He was area manager of Field Enterprises Educational Corporation in 1960.

LOCAL CHURCHES ANNOUNCE PLAN FOR CHRISTMAS

Several Cameron churches have announced plans for special Christmas programs Sunday, December 17.

The Choir of the First Methodist Church, under the direction of Mrs. Joe Hickman with Mrs. Hilliard Thomas, organist, will present its annual Christmas music program in the Sanctuary of the church Sunday at 5 p. m.

The public is invited to the program which will consist of six Christmas anthems.

The Choir and Sunday School children of the First Presbyterian Church will present the story "Love Came Down" by Dr. and Mrs. H. K. Taylor at 7 p. m. Sunday. The special program will be directed by Mrs. Charles Hensley and Mrs. Charles Brady Jr.

The Christmas story in narrative and tableau with choir accompaniment will be presented at 7:15 p. m. at the First Baptist Church with Primary, Junior, Intermediate and Adult Choirs participating.

Between each tableau stories will tell about the Christmas songs, how they were written and by whom.

The First Christian Church has announced plans for a special program beginning at 7 p. m. Sunday followed by the annual Church Christmas tree.

The Choir and children of the church will participate in the program.

HOUSTON VISITORS

Rev. and Mrs. John Solomon of Houston were visitors in Cameron over the weekend. They were houseguests of Mr. and Mrs. Willis Vogelsang.

Winners Named In First OJT Science Fair

Twelve winners were named Friday in four categories at O. J. Thomas' first Science Fair.

School officials reported that about 175 people viewed 40 entries from grades 1 through 12 in OJT Gymnasium.

Dr. Robert Bonner, visiting science lecturer with the Texas Academy of Science and a faculty member of Texas Southern College, was the guest speaker.

Entries were judged in biology, chemistry, mathematics and general science, officials said.

The exhibits were open to public view Friday night.

A "blue norther" blew in from North Texas Tuesday night just in time for a brisk pre - Christmas atmosphere.

Watching people bustling, if not running from store to store, it looks like the Christmas season.

At night, the Christmas windows in Cameron stores appeared especially attractive. The effect of remodeled fronts in some of the stores showed particularly well with the gaily decked store models and merchandise.

Building permits in Cameron exceeded the $100,000 mark with 12 homes being built thus far this year. That's a good sign when new home construction leads the way.

Last year was tremendous for Cameron in business and institutional construction with actual permits near the million dollar mark.

A pattern seems to be developing with greater personal investment as public interest in institutional construction builds.

A sixth grade pupil was experiencing more and more difficulty with arithmetic.

"I want to give it up, pop", he pleaded. It's not any use anyway."

The father was properly horrified.

"No use," he exlaimed. "Do you want to grow up an ignoramous and not be able to figure football scores, batting averages and race - track odds?"

City To Review Meter Balloting

The Cameron City Council Tuesday will review the results of a Cameron Chamber poll of meter attitudes among businessmen.

Chamber Manager Jack DuBois reported that 77 ballots out of a total of 85 showed:

Favoring permanent removal of meters: 31

Favoring removal for a trial period: 26

Favoring keeping the meters permanently: 20

The Council will take final action on the results of the poll Tuesday. Mayor Coleman Duncum and the Council met with merchants and the retail trade committee about three weeks ago.

The retail trade committee recommended to the Cameron Chamber board of directors that the meters be permanently removed. Board officials called for the survey of all businesses with meters in front of, beside or adjacent to their concerns.

Results of the survey showed the mixed reaction of the Cameron business community to meters.

Mayor Coleman Duncum told the merchants and members of the Chamber retail trade committee in recent meetings that meter removal would cause cutbacks in city street programs or other services. He said that anticipated meter revenue of $5,000 was already in the 1961 - 62 city budget.

DuBois said there were a number of comments on the meter survey sheet which delved into the meter issue and into retail trade practices as well.

FHA Office Adds Assistant Here

Hoyt Gaston, county supervisor for Farmers Home Administration, has announced the appointment of Charles McGilvrary as assistant in his Cameron office.

McGilvrary is a native of Wortham and a 1955 graduate of Sam Houston State College. He attended high school in Groesbeck.

Before working with FHA, he attended Texas A & M College, taught vocaitonal agriculture in the Lower Rio Grand Valley for two years, taught science at Johnson City and worked for the Texas Department of Agriculture.

McGilvrary, his wife, Olga, and their three children, David 5, Cynthia, 4, and Kimberly, 2, moved to Cameron from Pecos.

New Finance Concept . . .

Austin Man Explains SBIC

William Bullard, Austin attorney and financier, explained the workings of the Small Business Investment Corp. Wednesday before Cameron Rotarians.

He said the SBIC was established by the U. S. Congress about three years ago, setting up financing machinery to loan small businesses (under $5 million) equity capital on terms from five to 20 years.

Bullard, a University of Texas Law graduate and Phi Beta Kappa from the University of Kansas, explained the program has already channeled $150,000,000 into circulation which is matched by $150,000,000 of federal funds.

Forty - three loan concerns have been established in Texas through the SBIC legislation, Bullard said.

To form a company, he said, investors must provide $150,000 capital which is matched by the government to meet the $300,000 minimum capital requirement.

Then the company organized under SBIC can go into the money market to borrow four times the amount of its capital.

"It is designed to be operated by good business management, a minimum of nine directors," he said. "SBIC -organized investment firms can make money through interest on their loans or take stock in the business borrowing money. It is an entirely new concept in finance."

He pointed out the same dangers exist from the system that face any business venture. If the business receiving the loan does not operate successfully, the SBIC - oriented investors don't make money.

He cited one concern organized by Austin bankers and a Georgetown man which began with $307,000 which now has a $11,000,000 capital structure.

"It is definitely speculative," he said. "The problem at present is to make a profit through loans or becoming part owners in the borrowing firms."

Small business has a big problem in finding equity capital because commercial banks are unable to make loans over a long - enough pay out period, he said. The SBIC fills that need. It is regulated just likt federal banks and other loan institutions.

He was introduced by Lester Williams, program chairman.

Would You Give To Donnie's Fund

A Staff Special

Want a chance to bring Christmas where there is not likely to be any this December 25?

There is a young man, 17 to be exact, who is fighting bravely, but vainly for his life in a local hospital.

He has continued that fight since he was three months old.

This stamina is inherent in the L. T. Warren family, whose son, Donnie Ray Warren, has a rare kidney ailment. He wasn't supposed to live long when the ailment was discovered almost 17 years ago.

But he is alive. And thanks to the sacrifice of his family he has received medical attention through those long years.

But medical attention is necessary and expensive. His family's resources are expended.

That is where you can help .... like the Cameron Knights of Pythias who gave $105 earlier this week. Warren is a Pythian member. Another $50 went to the family from other donations.

The family does not ask for help. But they need it. So a Donnie Warren Fund has been established for a courageous young man and his family, who can look forward to no Christmas.

Both Cameron banks, the Citizens National and the First National, will accept donations for the Donnie Warren Fund. Petitions for donations, in any amount, are also being circulated.

The people of Cameron take pride in caring for their own. This is one time when a family and one of its members surely would like to know there still is Christmas.

Christmas is hope and you can help bring it to Donnie and his parents. They will thank you.

Not at all — and they would be the last to make such claim. In fact, they attended worship because of their realization that they were "of unclean lips" and that they "dwell among a people of unclean lips".

But God is perfect; and during worship, there was opportunity to see "the Lord sitting upon a throne, high and lifted up" in the beauty of His holiness; opportunity to experience the desire of faith to be cleansed from sin, renewed in strength, and thereby to know His presence within themselves.

So, as they leave the place of worship, they are better fitted for the issues of life. Their's is the songful testimony of Israel's singer:

"Know that the Lord is God!
It is He that made us, and
we are His; we are His people,
and the sheep of His pasture."

Do you, too, know the blessedness of "belonging" to God by the transformation of His grace?

"Seek ye the Lord while He may be found, call ye upon Him while He is near; let the wicked forsake his way, and the unrighteous man his thoughts; and let him return unto the Lord, and He will have mercy upon him; and to our God, for He will abundantly pardon." Isaiah 55:6,7.

West Presents United Front . . .

French and American disagreements on the way to settle the Berlin issue seemed to be resolved this week as U. S. Secretary of Defense Dean Rusk came away with an agreement for the U. S. to lead on in negotiations with Russia.

French Premier Charles De Gaulle up to this time had seen no reason for negotiations for as he said "there is nothing to negotiate."

With the buildup of American military forces, resumption of underground nuclear testing, it appears that the U. S. feels in a stronger position to talk about the problems of Berlin.

Khrushchev, clever fellow that he is, still has the intiative there as long as the Berlin wall is standing. Unless the wall comes down, as part of some kind of negotiation, Russia will maintain the initiative.

Russia meanwhile has been trying to dispell pressures from Red China by kicking Albania out of the Soviet "approved orbit." This was the same as telling Red China to stop rankling for war. Russia thinks she is doing all right with her Berlin wall.

Red China in undergoing a drastic period of food shortages and starvation for many millions of her people. She can ill afford to keep plying Khrushchev for the lead at present.

Now that the West is united in American spokesmen, Khrushchev will have to come up with some new wrinkle if he is to succeed in sustaining his Berlin advantage.

Will it be a closeout of Western access to Berlin? Will the Wall stay? Can Russia or East Germany afford to concede the considerable ground taken in the past six months of maneuvering?

Khrushchev apparently believes the U. S. will go to war over Berlin. De Gaulle must have been convinced of this or he would not have acquiesced to the British and American approach for negotiations. Adenauer of West Germany also felt things were going better since he went home recently from a visit with President Kennedy and extended military service time there, apparently as a measure to strengthen the West's position.

The island city of Berlin still remains the touchstone for trouble in Europe, regardless of negotiation outcome. Just being all by itself in the midst of East Germany is a disadvantage.

City Mentioned For Air Service . . .

Will Cameron one day have commercial air service to Houston?

An associated press wire story in the San Antonio Express last week indicated we might.

A firm listed as Cummings & Groves Aviation, Inc., of Houston, has applied for a certificate to provide scheduled air service to cities in Texas, Lousiana and Mississippi.

The proposal indicated that two - engine aircraft would be used.

They included a number of small cities from Houston to San Antonio. And return flights would come down in Fredriksburg, Austin, Cameron, Temple, Hearne, Bryan, Brenham, LaGrange, Eagle Lake and Rosenberg.

Other cities in Texas and Louisiana were listed in the proposal.

Significant it is that a Houston firm would include a number of small cities, including Cameron, on a request to the Civil Aeronautics Board.

They are looking into the future, apparently anticipating growth in these small cities.

Cameron already has an airfield, which when properly surfaced, could handle the size aircraft indicated by the Houston firm.

Indeed planes of that size already have landed here many times without the hard surface normally needed. But if commercial service is coming our way in future years, commercial airlines people will be inquiring into the prospects here.

Objections Told On New Session

By Vern Sanford

AUSTIN — Objections are being raised over the specially called session of the Texas Legislature, scheduled by Gov. Price Daniel for January 3.

Atty. Gen. Will Wilson says he hopes the Governor will reconsider his call for the third special session.

Actually, the attorney general doesn't object to the session nearly as much as he does the selection of bank escheat legislation as the prime object. Wilson feels that loan shark legilation should be the first order of business.

Sen. Dorsey Hardeman of San Angelo contends that the special session is unnecessary and will cause "undue expense" to the State.

Hardeman doesn't think that the session's purpose -- which is escheat enforcement, maintenance of farm - to market roads, and small loan legislation - will get acted upon in a 30 - day session.

Rep. W. T. Oliver of Port Neches claims the Governor called the special session strictly for "political reasons and publicity".

However, Governor Daniel has indicated that if his program isn't passed he will be running again in 1962.

TAXES NOT FOR TEACHERS

Teachers are not to blame for the 2 per cent sales tax, as many claim, says the Texas State Teachers Association.

According to the Teacher's organiation a sales tax would have been necessary to meet other needs.

Only $140,000,000 out of the $6[illegible]000,000 to be raised in new revenue will go for teacher pay raises, says the Association. Of the remaining $220,000,000 a total of $700,000,000 will be used to retire the finance services other than schools.

ED. COMMITTEE NAMED

Speaker James A. Turman has appointed five legislators to a Special Interim Committee on Education to serve as a consulting group to the Legislative Council. They will make a study of state teacher certification.

Rep. Herman Yezak of Bremond heads the committee, which consists of H. O. Niemeyer of Knippa, Miss Maud Isaacks of El Paso, Pete Snelson of Midland and Vidal M. Trevino of Laredo.

TEXTBOOK PICKING LENGTHY PROCESS

Texas Education Agency says school boards must select local textbook committees by December 15.

Samples of selected tests are mailed to the committee about January 1, and they must ready their reports for local boards by March 1.

This step in state textbook selection is one of the quickest in a process that begins every May and ends sixteen months later.

By the time a local committee is selected, publishers have submitted bids and books to the Commissioner of Education; the texts have been studied by the 15 - member State Textbook Committee, assisted by about 15,00 advisors; and the State Board of Education has passed on the committee's recommended list.

Approximately 11,000 school teachers will assist the local committees in picking school books to be published in time for pupil consumption next fall.

FARM ROADS IN SIGHT

Texas' $15,000,000 Farm-to-Market road fund, vetoed by Governor Daniel earlier in the year, may be freed for construction spent ding during the special session.

Restrictions which prevent proper maintenance caused the veto.

No wit appears that the Governor and the State Highway Commission have worked out a road program compromised with organized interest.

Hunting Season Drawing To Close For Texas Hunter

AUSTIN — Texas' 1961 hunting season will enter its final stages Friday, December 1, with the opening of the mule deer season west of the Pecos river, according to H. D. Dodgen, executive secretary of the Game and Fish Commission.

The season on mule deer will close December 8, with a limit of one deer, either buck or doe. Doe shooting will be permitted in a number of counties in the Trans-Pecos area, where there is an overabundance of doe, but only in areas where permits have been issued to landowners.

There will be public hunts on two management areas, the Black Gap Wildlife Management area adjoining the Big Bend National Park and on the Sierra Diablo area in Hudspeth County. Public drawings for permits to hunt on these two areas were held some time ago and permits issued.

The whitetailed deer season opened November 16 with good hunting success throughout the state, according to reports reaching Austin.

Permits were issued for harvest of antlerless deer in many of the regulatory counties of the state, and in several counties a third, or bonus, deer will be permitted. Although most hunters have been successful in getting a deer, not many unusually large deer have been reported.

The deepest well in Texas, 25-340 feet, was drilled in 1958, and was a dry hole.

Estimated 173 To Die On Highway

AUSTIN — Col. Homer Garrison Jr., director of the Texas Department of Public Safety, estimated today that 173 persons will meet violent death during the long Christmas - New Years holiday season -- with traffic crashes taking the lives of 88, other accidents 45 and suicides and homicides 40.

He designated the period from 12:01 a. m. Saturday, December 23, through 11:59 p. m. Monday, January 1, as the official time for "Operation Deathwatch," a grim tabulation of fatalities designed to focus public attention upon the extra hazards of the holiday season.

The DPS director said another purpose of this program is to "launch a stringent enforcement program to remove the relatively few dangerous and illegal drivers from the highways."

"We are urging responsible citizens throughout the state to join in this allout holiday safety effort by avoiding traffic law violations which could be calculated to cause violent death or injury," he said.

"Texans are confronted this year with a special challenge to help keep the tragic death toll below the figure indicated by statistical experience. The months of November and December were singled out this year for a stepped-up enforcement program because of indications that the year 1961 will end with a somewhat greater death figure than for 1960, when 2,254 persons died in Texas traffic."

LITTLE RIVER PHILOSOPHER

Philosopher Wants Reporters Banned From All Other Planets To Escape More Crisis

Dear editar:

I haven't taken a public opinion poll, but my guess is that not over 3 percent of the people in the world understand what's going on in the Congo, China, France, Germany, South America, etc. and I guarantee you I'm not in that 3 per cent.

Take just one segment of the world, take the Congo. Every day the newspapers are filled with big headlines and news articles about the current situation in the Congo, and I'm frank to say it's not clear in my mind yet whether Tshombe and when the articles get down to what's going on in Kolwezi and Jadotville, I turn to the sports pages or the latest morder.

Now I'll admit this may be regrettable, but I would like to point out that it's going to get worse, not better, on account of the limitations of a man's mind. The mind can handle just so much territory and by the time I get through keeping up with this immediate locality, then this, country, then this state, then part of the United States, then a few high points around the world, I haven't got any more time to spare and still get any work done, I can't even do it and not get any work done.

But what's going to happen when man, as it looks now like he will, gets out to other planets and finally gets them populated? And the headlines start pouring back in about a political upheavil on the Moon, the downfall of a government on Venus, economic aid for the drouth - stricken people on Mars? Etc.

I tell you, if man is smart, he'll pass a law right now making it illegal for any reporters ever to get off the earth. You let reporters scatter throughout the universe and before long the newspapers will be so jammed with crises from all over somewhere that the human mind will snap.

The world hasn't got many more problems now than it ever had, they're just better reported, and the better they're reported, the less of the total anybody understands.

If it wasn't for reporters and modern communications, this world still might not be any better off than it is, but everybody would think it was.

Yours faithfyully,
J. A.

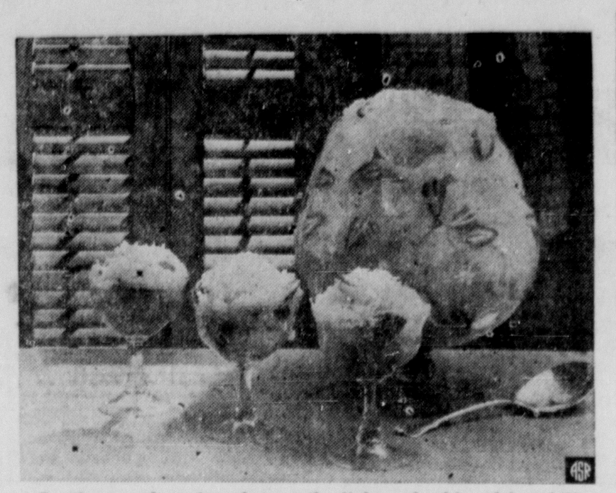
No gifts will be exchanged this year but each member is asked to bring a covered dish for the dinner. All members are urged to attend this party.

Miss Leath To Wed Nig Moody Dec. 24

The approaching marriage of Miss Doris Leath to Nig Moody, both of Cameron has been announced recently.

The couple will be married December 24.



Southerners have long known the light, refreshing delectability of the fresh fruit dessert called Ambrosia—served as a fitting finale to the oftentimes heavy holiday meals. Europeans have always associated oranges with Christmas, too, and there is no better season for dishing up this luscious, sweet dessert than now, when the fresh, juicy oranges and grapefruit Florida sends us each year are so plentiful.

Just picture a big sparkling brandy snifter filled to the top with plump, mouth-watering orange and grapefruit sections. Besides their lovely appearance, these citrus sections offer a bonus in good eating because of their abundance of healthful vitamin C and their low caloric content.

For classic Ambrosia, sprinkle the top of the serving bowl, or individual compotes, with the clean white of flaked coconut. Sliced canned or frozen strawberries, purple grapes or other berries of your choice will add appetizing color. Some versions call for toasted marshmallows and pecans.

Florida Ambrosia

3 Florida grapefruit
3 Florida oranges
1 cup strawberries, sliced
3 tablespoons sugar, optional
¼ cup flaked coconut

Chill oranges and grapefruit before preparing. Cut slice from top, then cut off peel in strips from top to bottom, cutting deep enough to remove white membrane. Then cut slice from bottom. Or, cut off peel round and round, spiral fashion. Go over fruit again, removing any remaining white membrane. Section grapefruit and 2 of the oranges by cutting along side of each dividing membrane from outside to middle of core. Remove section by section, over bowl, to retain juice. Slice remaining orange crosswise, ¼-inch thick. Combine grapefruit, oranges and strawberries; sprinkle with sugar if desired. Turn into serving bowl or individual dishes and sprinkle with coconut. Yield: 6 servings.

Coffee, Shower Fete Miss Camp Saturday

Two parties Saturday honored Miss Kay Camp, bride - elect of Harry James Johnston.

Mrs. J. Earl Johnson, Mrs. Mary Lawrence and Mrs. Walter Lawrence of Austin, honored Miss Kay Camp, at a coffee Saturday morning from 9:30 until 11:30 at the Johnson home.

Receiving the more than 100 guests were Mrs. Johnson, Mrs. Emory B. Camp and the honoree. Mrs. Emory A. Camp of Rockdale grandmother of the bride - elect was an honored guest.

Miss Camps chosen colors, gold and green, were used throughout the house in floral arrangements and decorations. A wedding scene, flanked by tall candles, was displayed on the mantle in the living roo mand a miniature Christmas tree decorated with golden wedding bells and topped with double wedding rings, centered the serving table. Streamers from the tree told the couples names and wedding date.

Fruit, party donuts and fruit bread were served in the dining room. Mrs. Walter Lawrence presided at the silver coffee service.

Members of the houseparty were Miss Peggy Hightower, Mrs. Carl Hill, Miss Mary Kestenbaum, Mrs. Littleton Barrett, Mrs. J. C. Kirk and Mrs. J. C. Martin.

Saturday evening Miss Camp was honored with a surprise shower given by Mrs. Dana Kestenbaum and Mrs. Sam Kestenbaum at the Dana Kestenbaum home.

A miniature bride and umbrella on the buffet set the theme for the party. Other decorations included arrangements of gold and bronze mums and a silver Christmas tree.

John Kestenbaum, dressed as Santa, presented the shower of gifts to the honoree.

Misses Mary and Betty Kestenbaum assisted in serving coffee, angle food cake and mints to the 20 guests.

Honored Wednesday At Christmas Party

Mr. and Mrs. Jerry B. Schiller were hosts for a Christmas Barbecue Party at their home honoring their employees and families Wednesday night.

Approximately 40 guests were served a buffet dinner from a table centered with a pink frosted toothpick Christmas tree and other Christmas decorations.

Fleur -de-lis Club Exchanges Holiday Decorating Ideas

Imagination and artistic ability were in evidence Tuesday night when members of the Fleur-de-lis Garden Club displayed Christmas decorations made for their homes.

The decorations were placed in the Hollas family room where club members exchanged holiday decorating ideas during a workshop period.

During the business meeting the club voted to place small Christmas arrangements in the Cameron hospitals. Club president Mrs. Monroe Fuchs, named Mrs. Bill Eanes head of this project.

A social hour followed the meeting.

History Club Has Christmas Meeting

Mrs. Mary McLane Lawrence was hostess for the History Club Christmas program at her home Tuesday afternoon.

Traditional holiday decorations centered around a Christmas tree lighted with red rosebud lights. Mrs. Eber Flinn presented a Christmas Story for the annual December program.

Following the program refreshments were served in the dinning room where holiday colors of gold and red decorated the table. Mrs. W. G. Gillis serve the salad and Mrs. W. C. Watson presided at the tea service.

During the social hour members enjoyed a gift exchange.

News About Milam Farmers, Their Interests, And Activities

Milam ASCS Report

By Milam County ASCS

On December 1, 1961, cotton and peanut allotment notices for the 1962 crop were mailed to all eligible farmers. At least 75 per cent of the effective cotton or peanut allotment must be planted once every three years in order to retain full history credit, provided that each of the other two years that the crop is not planted, the allotment is released. Any cotton or peanut farmer who does not want to plant his allotment may come by the county office any time before March 2, for cotton and April 4, for peanuts and sign a form releasing his allotment. In doing so, the acreage released may be used by someone else and history credit will be given to the farmer releasing the allotment. If the allotment is not released and the crop is not planted, then the allotment is reduced one - half each year and if such is the case for three consecutive years, the allotment is lost entirely.

On the other hand, cotton or peanut farmers desiring additional acreage, may sign forms requesting it by coming to the county office and executing the forms prior to March 2, in the case of cotton and April 4 if additional peanut allotment is desired.

The additional acreage is taken from the reserve established with the acreage released by those farmers who do not desire to plant their allotment or wish to plant only part of the allotment. If the reserve within the county is not sufficient to take care of the request for additional acreage, an additional allotment may be obtained for the county from the state reserve established with acreage released by other counties.

Practically all requests for additional acreage were granted during the last two years, substanially within the acreage request, using the acreage released by others within the county and with additional acreage requested and obtained from the state reserve.

The county office will mail new notices to those cotton and peanut farmers requesting additional acreage as quickly as possible and not later than March 16 for cotton and April 19 for peanuts. However, determination of reapportioned acreage cannot be made until after the deadlines, March 2 and April 4.

Farmers should make their crop plans early so that releases of acreage or requests for additional allotments may be made at an early date. Applications are being accepted at the count office now through tht deadline dates specified above.

COTTON REPORT

Trading in the spot markets was slow to active. Spot prices were generally steady. Shipper demand was very good. Domestic mill interest strengthened. Inquiries from abroad were not numerous. Variable weather prevailed.

Prices for Middling 1" cotton remained firm, quoted Thursday, December 7, at 33.15 cents in Dallas, 33.25 cents in Galveston and Houston and 32.85 cents in Lubbock, unchanged from a week ago. There was some adjustment of the discounts in the Dallas and Lubbock markets during the week. Harvest made good progress in the late producing sections most of the past week. In other sections harvest was generally slow. Producers continued to offer current ginnings freely when prices were above loan values. The demand remained strongest for the lower White and Light Spotted qualities in staples shorter than 1" of good character and Micronaire. Prices for these qualities were firm to some higher. The grades of the late ginnings were holding up exceedingly good. The Micronaire has dropped off considerably in some places and some slackening of prices was reported. Shipper demand was fair to good with buying largely for current requirements.

Harvesting of this season's crop continued to drag with variable weather prevailing most if the week. With a few days of open weather hand labor and machines were in the fields. Most gins in the late harvesting areas were crowded beyond capacity and a yard full of seed cotton. Fields in central, North and East Texas were wet in most places slowing final harvesting operations.

Winter Clean - Up On Fence Rows Helpful To Farms

COLLEGE STATION — Winter is a good time to rid your farm of a thief, says Garlyn Hoffman, extension range specialist. This thief is the worthless vegetation growing along the fence rows, which robs cash crops of valuable moisture.

During a wet year, the damage is not so great, but during a dry year, yields can be greatly reduced in a 50 to 100 foot band around the entire field.

On the other hand, if this brush is furnishing good habitat for quail it should be left alone, says Hoffman.

The easiest way to get rid of the fence row theives is to treat the area with chemicals. Winter is a good time because it is a slack season for labor, you can do a good job of treatment and good kills can be obtained with no danger to susceptible crops. It is important to apply the herbicides throughly, and a followup treatment the next winter is usually necessary to keep the brush under control.

Herbicides that can be used are 2,4,5-T and fenuron pellets. The 2,4,5-T should be mixed with diesel oil and the mixture applied liberally to the lower 12 inches of the tree trunk. Fenuron pellets should be applied at the rate of 40 to 60 pounds per acre or 1 tablespoonful per tree.

In most cases, the 2,4,5-T mixture costs less but the pellets can be applied faster and easier, points out Hoffman.

Early Planted Cotton Does Best, Yields Top Grade

COLLEGE STATION — Cotton planted on April 3 in field trials at the McGregor Substation of the Texas Agricultural Experiment Station in 1961 produced almost three times as much lint an acre as cotton planted on May 15. O. J. Tippit, farm superintendent, said early planting has proved effective over the years when early insect control is carried out.

In the 1961 tests, two varieties were used with little difference noted between them in yields when planted on the same date. The April 3 planting yielded 452 pounds of lint an acre compared with 158 pounds for the May 15 planting April 15 plantings produced 342 pounds of lint an acre compared with a yield of 274 pounds for May 1 plantings.

Gross returns per acre based on lint at 30 cents a pound were $135.60; $102.60; $82.20 and $47.40, respectively for the four different planting dates, Tippit said. Hoeing costs on the April plantings were 73 cents an acre compared with 55 cents for the May dates. All planting seed were treated with the systemic insecticide Thimet and the April plantings received three spray applications for early season insect control at a cost of $5.25 an acre. The May plantings required only a single spray application at a csot of $1.75 but all received three applications of insecticides for late season control at a cost of $675 an acre.

All tests were planted, Tippit said on early, well - prepared seedbeds, and 18 pounds of the Thimet-treated seed were planted per acre. This rate meant that approximately 100,000 seed an acre were planted. The final stand count taken after the last cultivation showed an acreage of 45,780 plants an acre or 3½ plants per foot in the row, well within the 3-4 plants explained.

The 60 - acre field on which the tests were carried out was in grain sorghum in 1960 and was fertilized with 100 pounds of 16-20-0 an acre. Tippit said root rot was not a factor in yield as only a trace occurred.

The deepest well in Texas is a gas producer at 16,680 feet.

Cotton Variety Test Results

By J. D. Moore
Milam County Agent

The following report is the result of a cotton variety test conducted by Joe P. Mueck, Rt. 1, Cameron. This demonstration was a part of the 7-Step Cotton program set up by a county committee headed by Wilburn Beckhusen of Buckholts.

The three cotton varieties tested were GREGG, ANTON and LANKART 57. Planting date for the test was April 20, 1961. 510 lbs. of 11-48-0 fertilizer was deep placed in the previous fall. The tests were sidedressed with 60 lbs of Nitrogen in the spring. Each test received 2 sweep and 2 flame cultivations. Eleven poison applications were made and one application of irrigation water was applied on May 30.

Each plot was 1.4 acres and the results were:

Gregg, 3891 seed cotton; 1066 lbs. lint; 760.4 lint per acre; 1830 lbs seed; 1. in. staples, L. M., Grade.

Anton 99, 3645 seed cotton; 1102 lbs. lint; 787.14 lint per acre; 1840 lbs. seed; 1 in. staple, M. L. S. Grade.

Lankart 57, 3705 Seed cotton; 1122 lbs. lint, 801.42 lint per acre; 1670 lbs. seed, 21-32 in. Staple, M. L. S. Grade.

SOIL TEST RECOMMENDED

The use of commercial fertilizer is a sure way to increase yields on most farms. A soil test is the basis for meeting soil needs.

Instruction for taking soil samples are available at the county agents office.

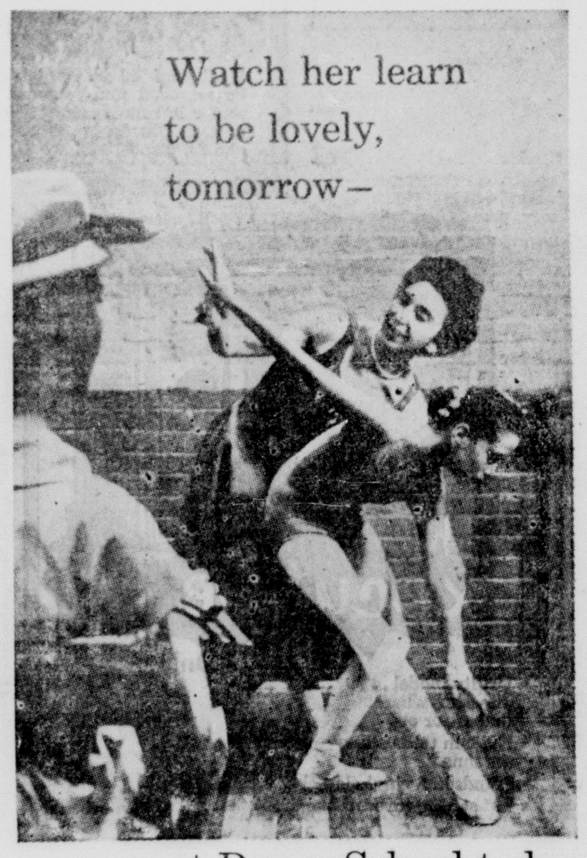
to be lovely,
tomorrow—



at Dance School today

Seeing a daughter develop from a tiny toddler to a lovely young woman is the very special joy of a mother. And, of all the many things a mother can give her child to help her along the way, few mean as much as Dance School.

To her — performing, the music, the costumes, her teacher from a Cinderella world, will all seem such fun. But, as your pleased eyes will soon tell you, Dance School is much *more* than just fun. You'll see the practice make her a more perfect little lady . . . more graceful . . . more poised . . more patient . . more charming. Much more difficult to see now: this grace and poise, this charm and beauty, will be with her *always* — she'll be so much the loveliet woman tomorrow, because of Dance School, today.

PRESENTING THE NEW SIZE DODGE DART!
SIZED RIGHT IN THE MIDDLE OF THE BIG AND LITTLE

This automobile is probably unlike any you have ever driven, seen or read about.

It's two feet shorter than America's longest car and two feet longer than America's shortest car. It's right in the middle. You don't have to give up inside room and comfort to get maneuverability, or economy to get performance.

For a fact, this is one of the quickest cars going. You can feel the difference instantly. It's got the most powerful standard six in the business. Most powerful standard V8 of any car anywhere near its price.

Inside this new size Dodge Dart there's plenty of room and comfort. The seats are chair-high and deeply padded. In the Dart 440 series a fold-down center armrest is standard equipment. Fold it down and you've got the comfort and security of a bucket seat. If you need extra room, just fold it up again.

The Dart 440 is a very luxurious automobile. There's sill-to-sill carpeting under your feet. The upholstery is saddle-grained vinyl. It extends clear up the door panels, and molds softly against the window openings.

Come in and drive the new size Dodge Dart.

Happy Christmas Brunch

"Crisp Baked Bananas"

It's a happy Christmas morning when the whole family sits down together for Christmas Brunch featuring delicious, "Crisp Baked Bananas" and bacon curls. Make it in the morning or prepare the night before by dipping the bananas in beaten egg and rolling in a mixture of crushed saltine crackers and seasonings; store in refrigerator until ready to bake. (The egg coating will prevent discoloration of the bananas.) Also, these bananas are good when used as a vegetable with meats, or served as a dessert. Make them this easy way:

Crisp Baked Bananas

10 single Krispy Saltine Crackers
1 teaspoon sugar
¼ teaspoon salt
¼ teaspoon nutmeg
¼ teaspoon grated lemon rind
4 firm bananas, medium size
1 egg, slightly beaten
¼ cup melted butter or margarine

With rolling pin, crush crackers into fine crumbs between two sheets waxed paper. Blend crumbs with sugar, salt, nutmeg and grated lemon rind. Set aside. Peel bananas; dip into beaten egg; roll into crumb mixture until well coated and place on buttered baking pan. Sprinkle some of remaining crumbs over tops of bananas, drizzle with melted butter and sprinkle with more crumbs. Bake in preheated hot oven (450°F) for 8 to 10 minutes, or until bananas are easily pierced with fork. Place on warm platter and garnish with crisp bacon. Yield: 4 servings.

Services Here Wednesday For Bartle Crenan

Funeral services were held 10 a. m. Wednesday for Bartle Crenan, 68.

Crenan died in a local hospital Tuesday morning. He was born May 4, 1893 in Hearne and lived in Burlington until 10 years ago when he moved to Cameron. He was a farmer and rancher.

The Rev. John Geiser officiated from St. Monica's Catholic Church. Burial was in St. Monica's Cemetery. Rosary was recited Tuesday night from Marek - Burns Funeral Home

Survivors are his wife, Mrs. Bartle Crenan of Cameron, one son William J. Crenan of Burlington, one daughter Miss Ellen Frances Crenan of Cameron, one sister Mrs. Ellen Hudson of Elpine, 3 grandchildren and a number of nieces and nephews.

Pallbearers were Valter White, Tommy Gleason, Erich Rothe, V. L. Angell, Bill Hudson and Nick Brannan.

Honorary Pallbearers wre Claude Akers, H. M. Akers, Ernest Vogelsang, Dero Jenkins, Eber Flinn, Leo O'Neill, A. A. Winkleman, August Gurecky and Paul Dillon.

Cotton Quotas Favored In Election Sat.

Alva E. Sanders, Manager of the Milam County ASCS Office in Cameron, reports that the majority of the Milam County cotton producers voting in the 1962 cotton marketing quota referendum held on December 12 favored marketing quotas. A total of 37 votes were cast in the fourteen polling places in Milam County, with the largest number of ballots being counted in "H" Community.

By Community, the turnout ran as follows: "A" 57 votes; "B" 30 votes; "C" 9 votes; "D" 19 votes; "E" 63 votes; "F" 37 votes; "G" 29 votes and "H" wit ha total of 93 votes cast. Of the total eligable votes counted, 320 were in favor and 17 opposed cotton quotas.

The affirmative vote in Milam County indicates that cotton farmers desire marketing penalties on the excess cotton produced and support price at the full effective level.

Support price, says Sanders, will be available to only those cotton farmers who stay within their allotment. To those who overplant their allotment and do not destroy the excess by the deadline date, there will be no price support and penalties will apply to all excess cotton produced.

HOW TO EXTEND THE SPIRIT OF CHRISTMAS

Just 10 more days to Christmas. Are you ready? It seems like every one in Cameron is busier than ever this year with holiday plans.

Each year people discover new ways to express the way they feel at Christmas. It's a wonderful and exciting time when folks everywhere add new expressions of good will to the traditional Spirit of Christmas.

Yet, over the years, nothing has ever replaced the satisfaction of personally exchanging greetings with loved ones and friends at Christmas. This helps explain the growth of a modern - day Christmas tradition: the long Distance phone call. Beginning on Christmas Eve, and throughout Christmas day, some 16 million people exchange greetings by Long Distance.

In making holiday calls, here's an idea that willl help you extend the joy of Christmas over the entire holiday season. Place your Long Distance calls station - to - station instead of person - to - person. This way you can make almost three calls for the price of two. You save even more when you call on Sundays or after 6 p. m. on weekdays. And, if you space your calls over the whole Christmas season, you'll find that each one seems to renew your holiday spirit and pleasure.

Whenever you call, your call will go through faster when you use the area code number for the out - of - town phone you wish to reach. These numbers are listed in the telephone directory.

TIP FOR LAST MINUTE SHOPPERS

If you're still looking for an extra special surprise for that favorite person on your Christmas list, I suggest you call our office and ask about our phoneland suggestions.

You'll find a host of telepone services that are sure to please . . . extension phones in color for any room in the house. Wall phones for the kitchen or den . . . table models and the handsome Princess phone for bedrooms and living areas of the home. Mother, wife or daughter will be delighted with such a thoughtful and personal surprise. So will the men.

With each order for a Christmas phone, you'll receive a miniature toy phone in an attractive box to place under the tree. Why not stop by or call our business office this week and let us help you make just the right selection?

I'd like to take this opportunity, on behalf of all of us here at the telephone company, to extend our very best wishes to you and each member of your family for this holiday season. Have a MERRY CHRISTMAS and a HAPPY NEW YEAR!

Call by number. It's twice as fast.

In The Service

Army Pvt. Belton H. Hill Jr., recently graduated from 82nd Airborne Division Jump School at Fort Bragg, N. C. Hill received his paratrooper wings after completing four weeks of intensive ground and aerial training which included five parachute jumps. The 82nd, a Strategic Army Corps unit, maintains an immediate readiness force for airborne deployment to any area in the world. He entered the Army last May and was last stationed at Ft. Sill, Okla. The 18 - year old soldier is a 1961 graduate of Brownwood High School and is the grandson of Mrs. Stella McCall of Cameron.

APRIL COTTON

Cotton planted on April 3 in field trials at the McGregor Experiment station in 1961 produced almost three times as much lint an acre as cotton planted on May 15. O. J. Tippit, farm superintendent, said early planting has proved effective over the years when early insect control is carried out.

TOWN and COUNTRY NEWS

Postmaster Gives Helpful Hints For Christmas Mailing

With Thanksgiving a recent memory, Postmaster John R. Hays said today, "It's Christmas every day in the Post Office from now on."

He offered these helpful hints on how to mail our Christmas cards and gifts to insure prompt and safe delivery before December 25th. Use 4 cent postage on your Christmas cards. Sent by First Class mail, they are sorted and delivered first, and if you include your return address on each envelope, they will be forwarded in the event of a change of address, or if they are undeliverable, they will be returned to you. Also, you can write a personal message on the Christmas cards sent by First Class mail; whereas, only your signature is authorized on cards sent at the 3 cent, unsealed Third Class rate.

Avoid careless packing of your gifts. Use strong cartons, wrap in heavy paper and tie with sturdy cord. Mark packages containing breakable gifts, "Fragile" -- "Handle With Care." Put an extra label carrying the recipients and senders name and address inside every package.

In conclusion, the Postmaster said, "By taking a little extra care with your Christmas mailings right now, you'll avoid disappointing friends and loved ones.

Heavy SS Claims In Temple Office

For the past few years, heavy claims loads in the Temple Social Security Office have been received in January, according to Charles E. Bass, Field Representative, who visits Cameron regularly. He adds that claims filed in January are thereby usually delayed in processing because of the high workload.

Bass suggests that persons age 62 or older planning to retire in January or February of 1962 see him on his next local visit to discuss possible advantages of getting their claims field before January.

With the liberalizations in the 1961 Amendments everyone over age 62 who has had three years or more of social security credits should investiage the possibility of collecting at least some retirement benefits in 1962 even though continuing to work. If expected earnings for 1962 are to be less than $3,000, Bass urges a discussion with him about payments possibilities. The next visits to Cameron will be at 102 West Main at 9 a. m. on Tuesday, December 12 and December 19. He will be in Rockdale at the City Hall at 9 a. m. Thursday, December 21.

COTTON VARIETIES

Tests conducted by the Texas Agricultural Experiment Station on the effects of cotton varieties on harvesters indicate the importance of selecting an adaptable variety if harvesting is to be done by machine.

In The Service

William Loyd Crawford, son of Mrs. Gladys Bullock of Ft. Worth has returned to San Diego, Calif., Naval Missle Facility, Point Argu- Crawford, who is a fireman apprentice, has been assigned to the USS Jackson. He is the grandson of Mr. and Mrs. Charles Leonard of Yarrellton.

FORT RICHARDSON, ALASKA (FHTNC) – Army M-Sgt. Wayne E. Talafuse, 30, son of Mr. and Mrs. William L. Talafuse, Route 1, Cameron, recently participated with other personnel from the 23rd Infantry in Exercise King Crab II, a seven - day air transportability maneuver on Kodiak Island.

During the exercise, which involved units from the Army, Army National Guard, Navy, Marine Corps, Air Force and Air National Guard, "friendly" forces engaged in simulated combat maneuvers against an aggressor force in the thick forest of the Cape Chiniak region on the island's eastern coast. Sergeant Talafuse's unit was airlifted from Fort Richardson, Alaska, where it is regularly located, for this exercise.

He is a platoon sergeant in the infantry's Company B at the fort. Talafuse entered the Army in 1950 and was stationed at Fort Hood, before arriving in Alaska in September 1960 on this tour of duty.

The sergeant attended South High School, Waco. His wife, Haru, is with him at Fort Richardson.

Sharp PTA Plans Christmas Party

The Sharp PTA Held their regular Meeting December 6. Plans for the Christmas party were discussed. Mrs. Stephens and Mrs. Brokenbush were appoined to head committees for the Dec. 19 Christmas party. Roy Green agreed to furnish Christmas trees for the school.

A program will be presented by the children. Santa Claus will be on hand to entertain the children.

A 42 party, with coffee and cookies will follow the program.

The next PTA meeting will be held January 3.

Application Set For Post Master

Application for examination for Postmaster at Thorndale will be accepted until December 19, 1961, according to officials of the post office department.

Applicants for the $5,370 a year position must have resided within the delivery area of the office for one year immediately preceding the closing date of the examination, and must be between the ages of 18 and 70.

I Give You Texas

More recollections from early boyhood --

My father became a traveling salesman (a "drummer" was the term used in those days)-- and he called on drug stores. Sometimes, I would accompany him on his travels. (I was five). We went by train. (However, to reach interior points, he would hire a buggy from a livery stable). One of the thrills of traveling on the train was at dusk the porter came through with a flame on a long stick and lighted the lamps overhead -- and the brilliantly - illuminated train thundered on through the darkening countryside.

I liked to stand in the aisle of the swaying coach; and determine when I grew up, to be a conductor.

Some of the traveling men carried a quill toothpick in a little case and after a meal, they would bring the quill into action. Most of them wore lodge emblems, one in the lapel, the other dangling from the watch chain. Mr. father wore only one, with the letters "FCB" which, when I asked him, he told me stood for "Fresh Country Butter". All the traveling men, including of course my father -- in fact, especially my father -- knew the funniest stories; and the merchants and customers (or hangeron) would even stop playing checkers to gather around with anticipatory smiles when a drummer entered.

My father and I stayed in the small - town hotels and ate in the hotel dining rooms. Sometimes the food was served, family style; but I liked the individual serving with a ring of six or seven small dishes around one's plate. I thought it was all very wonderful.

My grandmother on my father's side, I can not remember a great deal about as we did not visit her often and she died when I was small. But my grandmother on my mother's side, we frequently visited. She had a wonderful home -- made of logs, in the hills of Clay County, ten miles from Piggott, my birthplace. On the parlor wall, she had a large picture of a small baby -- my first photograph.

I was the oldest grandchild on my mother's side of the family and I took full advantage of my seniority over my cousins.

My grandmother on my father's side had married a second time. My step - grandfather had half a dozen brothers and all were named for some president. His given name was Fillmore. The christened Grant.

My father's sister (who of course was my aunt) married Grant. That made her the sister - in - law of her stepfather and I suppose it made mother and daughter sister-in - law, too.

My granmother had son by a second husband and this son was my aunt's half brother, stepbrother and brother - in - law. When Otto (my aunt's son) was born -- well, you figure out the relationships.

I can only dimly remember Uncle Grant but I regarded him as a great man, in spite of the fact that he was a Republican. He had fought in the War with Spain and had commanded a company of Filpino scouts in the Phillipines campaign. He made a truly wonderful record in the jungle warfare and he brought back photographs of tropical scenes. But, like the great general for whom he was named, he was a silent man, and I learned little of his adventures from him.

CAMERON HERALD

VIEW ON SPORTS

— WITH ROBERT MANN —

The after - effects of the resignation of YHS Head Coach, Billy Bates, have been ever present in Cameron, particularly on the Yoe campus, during the past week.

Bates, whose resignation became effective last Friday, has accepted a position with Holt's Sporting Goods.

As the 29 year - old stragetist put it in his letter of resignation, "I have been offered an opportunity in private business, which I consider a great opportunity."

Superintendent of schools, Charles Zeigler, expressed his feelings on the matter by saying "I hate to lose Billy from the profession, not only as a coach but also as a teacher."

VOS

As an individual, Bates has probably given more and taken less from the student body than any single coach connected with the school system in many years.

Besides establishing a solid athletic policy in 1½ years in Cameron, he has conveyed a meaning of true sportsmenship, good conduct and personal intergrity among his athletes that is seldom matched in a high school.

Billy Bates is respected; he is admired; and he is liked, by the people who played for him, worked with and over him. The passing of these milestones is a true credit to any man.

VOS

Jack Larimore, head basketball coach and assuming the athletic director's responsibilities since the resignation of Bates, has announced that Physical Education classes will start a weightligting course in the near - future.

Larimore said that no boy would be forced to lift weights, but there will be a course available for each P. E. class for those interested. He added that other members will continue as they are doing now with calasentics, basketball and track.

The rebuilding of P. E. classes is a part of the United States government Physical Fitness Program, as prescribed by presidental aides.

VOS

Jimmy Woodum, the only Yoe High School student with a basketball letter to his credit, has been added to the roundball squad.

A five foot, eleven inch senior, Woodum was high point man in the Yoemen's last tilt with Caldwell. He didn't show up for workouts earlier in the year.

Billy Owen, senior transfer from Madisonville, will be eligible for A team ball at mid - term. He tallied 9 points in the year's first B Marlin.
